Must-Know Selling Policies

Stay safe and follow these selling policies specific to SEA sellers.

SEA Service Metrics

As a cross-border seller from Southeast Asia (SEA), you should always ensure that your buyers have a great experience when shopping on eBay. When a buyer purchases your item, they expect it to arrive on time and as it was described in the listing. Sellers must create accurate listings and ship items in a timely and secure manner in order to ensure that buyers are satisfied with their purchases. Starting from August 25th 2019, we will be introducing the following service metrics for SEA sellers:

Unsatisfactory Delivery Rate

It is important that your items arrive on time and reliably whether selling cross-border or forward-deployed.
